CMS: WordPress • Elementor • WooCommerce • ACF

Web: Responsive Design • REST APIs • Cross-browser Compatibility

SEO: Technical SEO • Google Analytics • Google Search Console • Core Web Vitals

Hosting: DNS • SSL • cPanel • Website Migration

Tools: Git • VS Code • Microsoft 365

Professional Experience

Web Developer

Citiblu | July 2024 – Present

- Designed, developed and maintained responsive WordPress websites using Elementor, PHP, HTML5, CSS3, JavaScript and SQL for NGOs, corporate organisations and private businesses.
- Delivered end-to-end website development projects from requirements gathering and planning through development, testing, deployment and post-launch support.
- Collaborated directly with clients to translate business requirements into intuitive, user-centred digital solutions while applying UX/UI and responsive web design principles.
- Developed and customised WordPress themes, plugins and reusable website components to enhance functionality, usability and overall user experience.

- Improved website performance, technical SEO, website security and accessibility through optimisation, caching strategies, structured metadata and Core Web Vitals best practices.
- Managed hosting environments, DNS, SSL certificates, website migrations and third-party integrations while providing ongoing website maintenance, troubleshooting and technical support.

Web Developer (Project Based)

Maksure Risk Solutions | October 2025 – June 2026

- Collaborated with the development team to design, develop and maintain the company's corporate website using modern web technologies.
- Developed responsive front-end interfaces and implemented new website functionality that delivered a seamless experience across desktop, tablet and mobile devices.
- Contributed to the development and enhancement of internal web-based business applications by implementing front-end features, integrating back-end services and supporting overall system improvements.
- Worked with REST APIs, databases and back-end services to support application functionality, system integration and data management.
- Performed testing, debugging and troubleshooting to improve application reliability, performance and user experience.
- Supported software deployment, maintenance and continuous improvement throughout the software development lifecycle while following Agile development practices.

Web Developer Intern

Citiblu (Pty) Ltd | July 2022 – July 2023

- Assisted in developing and maintaining responsive WordPress websites using PHP, HTML5, CSS3, JavaScript and Elementor.
- Supported WordPress theme customisation, plugin enhancements and content management to improve website functionality.
- Performed website testing, debugging, technical SEO, website optimisation and cross-browser compatibility testing.
- Assisted with website deployments, migrations, hosting configuration and ongoing maintenance while collaborating with senior developers.
